PUBLIC DEBT.

Simla, the 3rd July, 1918.

No. 1001-A.—In exercise of the powers conferred by section 14 of the Indian Securities Act, 1886 (XIII of 1886), and with reference to the Government of India, Finance Department's notification No. 153-A., dated the 27th March 1918, the Governor-General in Council is pleased to make the following rules relating to Bearer Bonds:—

1. A Bearer Bond, the coupons attached to which have been exhausted, shall be renewed. Application for renewal shall be made to the Public Debt Office or to the treasury in which the Bond is registered for the payment of coupons, and the Bond must be presented with the application. No fee shall be charged for the renewal of a Bearer Bond.

2. The loss or destruction of a Bearer Bond or of coupons or of both shall be notified in the first instance, by letter addressed to the Public Debt Office, Calcutta, direct, or in the case of a Bond standing on the books of the Public Debt Office, Bombay or Madras, through the Public Debt Office concerned. A registration fee of Re. 1 per Bond shall be sent with the letter which shall contain the following particulars, namely:—

(1) Particulars of the number and value of the Bearer Bond and the loan to which it belongs.

(2) Particulars of coupons alleged to have been lost, or in the possession of the claimant, as the case may be.

(3) Name of the Public Debt Office or treasury at which the Bond has been registered for payment of coupons.

(4) The circumstances attending the loss or destruction.

(5) Whether the loss was reported to the Police.

With every such letter there shall be forwarded the following documents, namely:—

(*a*) The Post Office receipt for the letter containing the Bearer Bond or coupons, or both, if lost in transmission by registered post.

(*b*) A copy of the police report, if the loss was reported to the Police.

(*c*) A certificate from the Presidency Bank or the treasury concerned certifying to the last payment of a coupon with regard to the Bond.

(*d*) An affidavit sworn before a Magistrate testifying that the claimant was the last legal holder of the Bearer Bond.

(*e*) Any portions or fragments which may remain of the lost or destroyed Bearer Bond or coupons or both.

A duplicate of the letter to the Public Debt Office, Calcutta, but not of its enclosures, shall also be sent to the treasury at which the Bond is registered for payment of coupons.

3. The loss or destruction of a Bearer Bond, coupons or of both shall be further notified by an advertisement in the following form which the claimant shall cause to be inserted in three successive issues of the *Gazette of India*, and of the Local Government Gazette where there is one:—

Lost or destroyed (as the case may be).—The Bearer Bond No.—of the—per cent loan of—for Rs.—(together with coupons or without coupons) / Coupons relating to Bearer Bond No.—of the—per cent loan of—for Rs.—having been lost or destroyed, notice is hereby given that application is about to be made to the Public Debt Office, Calcutta, for the issue of a duplicate in favour of the undersigned.

Name of the Advertiser............

Residence ....

4. Where a Bearer Bond is reported to be lost or destroyed, and the coupons are in the possession of the person claiming to be the owner of the Bond and coupons, the Controller of Currency, if satisfied that the Bond has been lost or destroyed, may, after the expiry of six months from the last date of the advertisement prescribed in Rule 3, direct the Public Debt Office, Calcutta, to issue to the claimant a duplicate Bond with coupons and to pay the amount of any coupons which may be due, upon the execution by him of a bond of indemnity with two sureties, should the same be deemed necessary, for twice the value of the bond lost or destroyed, and on the surrender by him of the unpaid coupons of the original bond.

5. Where both a Bearer Bond and its coupons are reported to be lost or destroyed, the Controller of Currency, if satisfied that the bond and coupons have been lost or destroyed, may, on the expiry of two years from the last date of the advertisement prescribed in Rule 3, include the particulars of the lost or destroyed bond and coupons in a list of lost Bearer Bonds and coupons. No payment shall, however, be made on the lost or destroyed bond or coupons, nor shall a duplicate bond with coupons be issued, until six years have expired from the date of the first insertion in the list. Thereafter the Controller of Currency, if he sees no objection, may direct the Public Debt Office to issue to the claimant a duplicate bond with coupons and to pay the amount of any coupons which may be due (or if the bond is of a terminable loan which has fallen due for redemption, to pay the amount of the Bond and of any coupons which may be due) upon the execution of a bond of indemnity with two sureties, should the same be deemed necessary, for twice the value of the Bond and twice the value of the coupons due for payment. The Controller of Currency may, if he thinks fit, extend to twelve years the period of six years mentioned above.

6. Where the coupons only of a Bearer Bond are reported to be lost or destroyed, the Controller of Currency, if satisfied that the coupons have been lost or destroyed, may, on the expiry of two years from the last date of the advertisement prescribed in Rule 3, include the particulars of the coupons in the list mentioned in Rule 5. No payment shall, however, be made on the coupons, nor shall a duplicate Bond with coupons be issued until six years have elapsed from the date of the first insertion in the list. Thereafter the Controller of Currency may, if he sees no objection, direct the Public Debt Office, on the surrender by the claimant of the original Bearer Bond, to issue to him a duplicate Bond with coupons and to pay the amount of any coupons which may be due on

the execution of a bond of indemnity with two sureties, should the same be deemed necessary, for twice the amount of the coupons due for payment. The Controller of Currency may, if he thinks fit, extend to 12 years the period of 6 years mentioned above.

7. The list referred to in Rules 5 and 6 shall be advertised half-yearly in the *Gazette of India*, in the months of January and July or as soon afterwards as may be convenient. All Bearer Bonds and coupons, the inclusion of which in the list has been directed by the Controller of Currency, shall continue to be advertised every half-year until the expiry of six years from the date of first publication or from the date of the last payment of a coupon, whichever is the later date. The list shall contain the following particulars, *viz.*, the number of the lost Bearer Bond, its value, the dividend numbers and dates of the lost coupons, the name of the loan, the name of the claimant for a duplicate, and the date of publication of the list in which the Bearer Bond was first mentioned.

8. The indemnity bond referred to in Rules 4, 5 and 6 shall be in such form as may be prescribed by Government. No fee will be chargeable if a bond does not exceed the amount of Rs. 500, but on bonds for higher amounts a fee of Rs. 5, for every Rs. 1,000, or a part thereof, shall be charged, provided that no fee for any one indemnity bond so issued shall exceed the amount of Rs. 30.

If, however, the Controller of Currency considers that the circumstances of the case demand that a bond shall be specially prepared by the Government Solicitor, a fee of Rs. 32 shall be payable to that officer.

9. Particulars of lost or destroyed Bearer Bonds in respect of which an order is made for the issue of a duplicate under Rule 4, as also of the Bonds or coupons referred to in Rules 5 and 6, shall be advertised half-yearly in the *Gazette of India*. The Bonds or the coupons shall be included in the first list published next after the passing of such order and shall continue to be advertised every half-year until the expiry of six years from the date of their first publication. The list shall contain the following particulars, *viz.*, the number of the Bond, the name of the loan to which the Bond relates, the value of the Bond, the dividend numbers of coupons relating to the Bond, the name of the claimant for a duplicate, and the date of publication of the list in which the loss or destruction of the Bond or the coupons was first mentioned. The loss or destruction of the Bond or the coupons or both must also be specifically indicated in each case.

Season and Crop Prospects for the week ending Saturday, 29th June 1918.

Burma.—The rainfall during the week was general throughout the Province. The fall was heavy on the Arakan and Tenasserim coasts and moderate elsewhere. In the dry zone the rainfall was scanty. Ploughing of winter rice has been completed in Lower Burma, and in irrigated tracts of Upper Burma Sowings of sesamum, groundnut and cotton still continue Standing crops are generally in good condition. Live stock is healthy. The price of unhusked rice remains stationary and is below normal. The market for white rice is steady at Rs. 230 per hundred baskets for specials.

Assam.—The weather during the week was rainy Floods have damaged crops in Sylhet, Goalpara, Kamrup and Lakhimpur. Manufacture of tea and sowing and ploughing for the transplantation of winter rice continue. Prospects of crops are generally fair Cattle disease is reported from seven districts. The price of common rice rose slightly.

Bengal—The rainfall during the week was heavy especially in the northern and some eastern districts. Excessive rain has affected crops on low lying areas and has, in some cases, necessitated early harvesting of jute. The condition of other crops is fair on the whole. The average price of common rice has risen by about 1 3 per cent.

Bihar and Orissa.—The rainfall during the week was general over the Province, the fall being mostly moderate. Sowing of winter rice and autumn crops is in progress. Weeding of jute is going on. Standing crops are doing well. The price of common rice has risen in six districts, fallen in four and remained stationary in the remaining districts as compared with that of the preceding week. Cattle disease is reported from twelve districts The condition of standing crops in the Feudatory States of Orissa is good

United Provinces.—Light rain fell in all districts. More rain is wanted in a few places. Preparation of land for and sowing of autumn crops and irrigation of sugarcane continue Irrigation of autumn crops and harvesting of extra crops are in progress in places. Standing crops are doing well and prospects are favourable The condition of agricultural stock is good but cattle disease is reported from parts of a few districts. Fodder, water and market supplies are sufficient. Prices are generally stationary but have risen in a few districts.

The weekly report on scarcity in Garhwal is as follows:—The rainfall during the week was 10 cents in Pauri, 46 cents in Srinagar and 99 cents in Karnprayag. Standing crops are doing well. The weather is now clear and dry. Prospects are favourable. Transplantation of rice in irrigated land and weeding and harrowing continue. Fodder and water are sufficient. Cattle disease is reported from one *patti*. Prices are generally stationary. Market rates at Pauri are, wheat 6 and barley 8 seers per rupee and at Chamoli wheat 4½ and barley 6 seers per rupee. Advances for grain tickets and for the importation of grain and grant of subsistence takavi are being made. Markets in central and upper Garhwal are well supplied. Grain is being steadily imported. The number of persons in receipt of gratuitous relief during the week was 884. No wandering or emaciation is noticed. The public health is generally good.

Punjab.—During the week light showers were received in parts of the south eastern and submontane tracts and proved useful. Rain is urgently needed for the sowing of autumn crops. Sowings of cotton and other autumn crops continue and are below normal to normal. Germination is fair. So far standing extra spring crops and sugarcane and cotton are in average to good condition. The yield of extra spring crops is expected to be average. Cattle are healthy and fodder and water are sufficient. Prices have an upward tendency and range generally between normal and warning rates in the south east and between warning and scarcity rates elsewhere. REGISTER OF FACTORIES.

3. The Inspector shall keep a Register of Factories in From A attached to these rules, and shall furnish a copy of the entries pertaining to each district to the District Magistrate thereof and to the Certifying Surgeon appointed for the area in which the factory is situated on the 1st February of each year. He shall also intimate to the District Magistrate at the time they are made all changes in the register which are made in accordance with the following rule.

DIRECTIONS FOR COMPILING THE REGISTER OF FACTORIES.

4. (*a*) Every person sending to the Factory Inspector a written notice under section 33 of the occupation of a factory shall state in the prescribed Form M the maximum number of persons simultaneously employed within the precincts of the factory on any one day in the year.

(*b*) When the Inspector receives notice in accordance with section 33 of the Act in Form M of a factory being occupied, and it does not appear from such notice that any of the exemptions specified in section 3 (1) of the Act apply, or when he has reason to believe that any premises situated within the local limits for which he is appointed and not already registered as a factory ought to be included in his register, he shall send to the occupier of the premises a notice intimating his intention of placing such premises on his register of factories.

(*c*) Any person served with a notice under clause (*b*) above may, within 15 days of the receipt of such notice, forward to the Inspector a statement setting forth his objections to the registration of his premises as a factory. The Inspector shall consider and dispose of such objections, after making such enquiry as he may deem necessary, and shall make up his Register of Factories accordingly, and shall communicate his decision to the person concerned.

(d) If the occupier of a registered factory wishes to claim exemption from the Act and to have his factory removed from the register on the ground that it is exempted under section 3 (1), then he shall forward a detailed statement giving his reasons why the factory should be removed from the register. The Inspector shall consider and dispose of such claim, after making such enquiry as he may deem necessary, and shall communicate his decision to the person concerned.

(e) When any premises ceases to be occupied as a factory, the occupier may give notice of the fact to the Inspector, who shall, if satisfied that the Act is no longer applicable to such premises, remove them from his Register of Factories. The Inspector may without such notice of his own motion at any time remove any factory from his register, if satisfied that it is no longer used as such.

(f) Seasonal factories shall not be removed from the register if there is probability of their starting work again within a reasonable time.

SECTIONS 4, 5 AND 37 (2) (a).

INSPECTION.

5. The Inspector appointed under section 4 (1) of the Act shall be primarily responsible for the administration of the Act within the Punjab. He shall inspect every factory other than a seasonal factory, within that area at least twice yearly, and every seasonal factory within the area at least once during each season of work. He shall also make such further inspections as may appear to be necessary to him, or to the authority to whom he is subordinate, in order that he may satisfy himself that the provisions of the Act and of these rules are duly observed.

SECTION 5 AND SECTION 37 (2) (b).

DUTIES AND POWERS OF THE INSPECTOR.

6. (a) In addition to and without prejudice to any other powers or duties which the Inspector may exercise under the Act or rules, he shall at each inspection of a factory satisfy himself that the provisions made in the Act and rules to secure the health and safety of the operatives are observed: that the children employed in the factory have been duly certified and the register of children properly maintained: that the hours of employment of women and children and of any persons working in shifts are properly recorded: that the periodical stoppages of work and the holidays provided by the Act are granted, and that the limits of hours of work laid down therein are not exceeded: and that the abstracts and notices prescribed by section 36 of the Act are duly affixed and that the registers and muster-rolls required by these rules are properly maintained. He shall further enquire into the cause of all accidents which have taken place since the last inspection. Finally, he shall note how far the defects pointed out at previous inspection have been removed and how far orders previously issued have been complied with. A note of all defects and illegalities discovered together with orders for their remedy or removal passed by him under the Act or these rules shall be subsequently sent to the occupier or manager in the Form J (attached to these rules), and a copy of the said list shall be sent to the District Magistrate concerned.

Director of Statistics.

DEPARTMENT OF STATISTICS, INDIA.

TRADE FLUCTUATIONS IN SELECTED ARTICLES IN APRIL, 1918.

The object of the tables appended is to show the quantities of the principal staples of agricultural produce imported from the various provinces, etc., and from foreign countries into the ports of Calcutta, Bombay, Karachi, and into the Madras ports during the month of April, 1918, as compared with the corresponding month of 1917. The statistics include foreign sea-borne and coasting trade as well as inland (rail and river-borne) trade. They have been furnished by Collectors of Customs, Steamer Companies, Railway Audit Officers, the Commissioners for the Port of Calcutta, etc.

TRADE FLUCTUATIONS IN APRIL, 1917 AND 1918.

It will be seen from summary table I that the imports by rail, river, and sea in April, 1918, as against the corresponding month of 1917, show (in round numbers) an increase of—

119 per cent in jute

(333 100 bales as against 152,000 bales last year),

55 per cent in gram and pulse

(107,700 tons as against 69,300 tons last year), and

16 per cent in tea

(11,403,300 lbs as against 9,865,200 lbs last year).

The imports of linseed by rail, river, and sea into the ports of Calcutta and Bombay show a fall of 58 per cent (13,500 tons as against 32,500 tons last year) due mainly to smaller exports from Bihar and Orissa and the Nizam's Territory. The decrease of 42 per cent (99,200 tons as against 171,100 tons last year) in the imports of wheat (excluding wheat flour) is accounted for by smaller exports mainly from the Punjab, the Central Provinces and Berar, and Rajputana and Central India. The imports of raw cotton show a decrease of 37 per cent (314,800 bales as against 502,400 bales last year) owing to smaller exports mainly from Bombay. The fall of 33 per cent (71,900 tons as against 106,600 tons last year) in the imports of rice (including paddy) into the ports is mainly due to smaller exports from Sind and British Baluchistan and Burma.

It will be seen from Table IV (wheat, excluding wheat flour) that the principal sources of the imports in April, 1917, were the Punjab (29 per cent), the United Provinces (17 per cent), the Central Provinces and Berar (17 per cent), and Rajputana and Central India (15 per cent). During April, 1918, the ports received their supplies mainly from the United Provinces (70 per cent).

NOTE.—One bale of cotton or jute is equivalent to 400 lbs.

One maund is equivalent to 82$\frac{2}{7}$ lbs.

One maund of paddy is taken as equivalent to 25 seers of rice.

TRADE FLUCTUATIONS IN APRIL, 1918, AS COMPARED WITH THE PREVIOUS MONTH.

As compared with March, 1918, the imports in April, 1918, into the ports referred to above show (in round numbers) an increase of—

95 per cent in linseed

(13,500 tons as against 6,900 tons in the previous month),

63 per cent in rape and mustard seed

(16,700 tons as against 10,200 tons in the previous month),

41 per cent in wheat (excluding wheat flour)

(99,200 tons as against 70,200 tons in the previous month),

37 per cent in raw cotton

(314,800 bales as against 229,600 bales in the previous month), and

22 per cent in gram and pulse

(107,700 tons as against 88,400 tons in the previous month),

and a decrease of—

36 per cent in rice (including paddy)

(71,900 tons as against 112,600 tons in the previous month),

30 per cent in tea

(11,403,300 lbs as against 16,189,700 lbs in the previous month), and

19 per cent in jute

(333,100 bales as against 411,800 bales in the previous month).

The statistics for the month of April, 1917 and 1918, together with those for March, 1918 and April, 1918, are summarised below:—

COTTON PRESS RETURN.

No. 16 of 1917-18.

PREFATORY NOTE.

The Cotton Season, 1917-18.

The yield of the cotton crop of 1917-18 was estimated in February, 1918, at 4,035,000 bales on an area of 24,781,000 acres, as compared with 4,489,000 bales on an area of 21,745,000 acres, the revised final figures of the preceding year. There was a decrease of 10 per cent in outturn. There were 1,072,000 bales of cotton pressed in the pressing factories, and 370,000 bales of unpressed cotton received in the spinning mills, from 1st September, 1917, to 30th April, 1918, as against 1,633,000 bales and 347,000 bales, respectively, during the corresponding period of last year, showing a decrease of 34 per cent in the case of presses, but an increase of 7 per cent in the case of mills. Too much stress should not be laid on the accuracy of these returns as a means of checking the forecast estimates of outturn, as there is at present no system in vogue of furnishing complete returns from all presses and mills. The figures for the Native States of Hyderabad, Central India, Rajputana, and Mysore are, as will be seen from the footnotes to the tables, mostly incomplete and have been excluded from this comparison.

APPLICATION FOR AMENDMENT UNDER SECTION 17.

Notice is hereby given that all persons interested in opposing the following application to amend at any time within three months of the date of this *Gazette of India* give notice at the Patent Office in the prescribed form No. 5 of such opposition.

No. 2851 of 1916. John Graeme Balsillie, of 360, Collins Street, Melbourne, Victoria, Australia, seeks leave to amend the specification of his application for patent numbered as above. The proposed amendments as shown in the printed specification are as follows:—

On page 1, line 3 by substituting "atmospheric region of winds vapor and dust clouds known as the "troposphere" for "atmosphere".

On page 1, lines 12 to 14, by substituting "Condensation on the negative ions so produced only begins when the supersaturation is about fourfold, and condensation on the positive ions so produced only begins when the supersaturation is about sevenfold. Dust particles already existent in the atmosphere may be caused to act as more active nuclei if these particles be electrified. Under suitable conditions water condensed on such charged dust particles will by virtue of their charge grow considerably in dimension," for "and if the...... ....is assisted".

On page 1, lines 18 to 19 by substituting "Of such a dimension as will occasion" for "and assisting.....................occasioning".

On page 1, line 25 by inserting "charged" after "providing".

On page 1, lines 27 and 28 by omitting "with the...............zone, 1".

On page 1, line 29 by substituting "negative" for "opposite".

On page 1, line 30 by omitting "to that..........................contained".

On page 2, by omitting lines 1 to 12.

On page 3, by substituting the following claims for claims 1, 2, 3 and 5:—

"1. A process for assisting and promoting formation of aqueous particles in a zone of the troposphere, and occasioning their deposition as rain, consisting in providing charged nuclei in said zone upon which the water vapor may condense, and simultaneously maintaining electrification in said zone.

2. A process for assisting and promoting the formation of aqueous particles of such a dimension that their deposition as rain takes place in and from a zone of the troposphere consisting in negatively electrifying the already existent dust particles in such zone and simultaneously maintaining electrification therein.

3. A process for the purposes set forth consisting essentially in providing electrified nuclei in a zone of the troposphere and simultaneously maintaining electrification of said zone.
5. Apparatus for the purpose of occasioning local rainfall, comprising a plurality of electrical stations capable of simultaneous operation, each of said stations comprising means for electrically charging nuclei in a zone of the troposphere upon which nuclei water vapor may condense and for maintaining electrification in said zone".

PREFATORY NOTE.

The returns of Indian imports and exports, including re-exports of merchandise (exclusive of treasure and Government stores), by sea during the twelve months of the financial year 1917-18 show a trade balance (excluding treasure) in favour of India of over R80 crores or 12 per cent below that of the corresponding period of the previous year. In the twelve months of 1916-17 the balance in favour of India was over R91 crores.

India's Balance of Trade in the twelve months, April to March 1915-16, 1916-17, and 1917-18 was as follows :—

Balance of Trade	—	—	—

As the publication of the treasure figures has been temporarily discontinued, it is not possible to give here the net (private) exports from April to March, nor the net balance of trade in the same period. It may be of interest to note that the net (private) exports, including treasure, are considerably below those of 1916-17 and also below those of 1915-16. The balance of trade, so far as shown by the statistics of merchandise, treasure, Council Bills, and Enfaced Rupee paper, in the twelve months ended March, 1918, is in favour of India, though not to so large an extent as in the corresponding period of 1915-16 and 1916-17.

The total exports of Indian merchandise in the twelve months ended March, 1918, amounted to R223 crores, of which R120 crores went to ports within the British Empire and R103 crores to ports outside the Empire. The United Kingdom took 26·4 per cent of the exports, followed by the United States 13·6 per cent, Japan 13 per cent, and France 3·8 per cent. Italy took 3 2 per cent and Egypt 11·1 per cent, but a considerable portion of the shipments to Egypt was transit trade, the exports being consigned to Port Said "for orders." During the same period there were imported into India goods of the value of nearly R150 crores. Of this amount over R96 crores were sent from ports within the Empire, nearly R82 crores alone coming from British ports. The principal exporter to India, apart from the United Kingdom, was Japan, which exported goods to the value of over R18 crores. The United States were the third largest exporter and Java the fourth.

The following figures showing India's trade with the British Empire and Allies, and Neutral countries during the twelve months of the three official years 1915-16, 1916-17, and 1917-18 are interesting :—

With reference to the awards conferred, as announced in the London Gazette, dated 18th January 1918, the following are the statements of service for which the decorations were conferred:—

* * * * * * * *

Awarded the Distinguished Service Order.

* * * * * * * *

Lt. (A.-Capt.) Herbert Dryden Home Yorke Nepean, Ind. Army.

For conspicuous gallantry and devotion to duty. He led his men under a withering fire to the capture of a ridge, and organised a strong defensive line on the position. Though wounded, he refused to leave his post for some hours. His fearless bearing was the greatest encouragement to his men.

* * * * * * * *

Capt. Alan Patrick Rodgerson, Ind. Army.

For conspicuous gallantry and devotion to duty in an attack. He led the assaulting companies, on his own initiative, to the capture of a bridge under heavy fire, thereby cutting off the enemy's retreat. Though severely wounded, he refused to go back till he had reported on the situation, and sent in information which was of the greatest value. His conduct throughout was worthy of the highest praise.

* * * * * * * *

Awarded the Military Cross.

* * * * * * * *

Sub.-Maj. Amar Sing Thapa, Sardar Bahadur, Ind. Army.

For conspicuous gallantry and devotion to duty. At a critical moment in the attack he showed the greatest determination and coolness in encouraging his men to dig themselves in, thus contributing largely to the maintenance of a difficult forward position. His complete disregard of danger was a fine example to all ranks.

* * * * * * * *

Lt. Leonard Jasper Peck, I.A.R.O., attd. Ind. Army.

For conspicuous gallantry and devotion to duty. He laid a track to an advanced position and by careful study beforehand of the obstacles carried out the work with great promptitude. He followed up the attacking infantry as closely as possible under intense fire. The success of the track and its completion in the required time were largely due to his initiative and resource.

DEPARTMENT OF REVENUE AND AGRICULTURE.

Season and Crop Prospects for the week ending Saturday, 6th July 1918.

Burma.—During the week rain was general throughout the Province. It was heavy on the Tenasserim coast and good elsewhere. Ploughing for winter rice continues in Lower Burma and in the irrigated tracts of Upper Burma. Cultivation of cotton, groundnuts, sesamum and jowar is proceeding normally. Standing crops are generally in good condition. Cattle are generally healthy. The price of unhusked rice is rising but is still below normal. The market for white rice is firm at Rs. 240 per hundred baskets for specials

Assam.—The weather was generally seasonable. Cultivation, sowing and transplantation of winter rice and manufacture of tea are in progress. Harvesting of autumn rice has commenced. Prospects of crops are fair to good. Cattle disease is reported from eight districts. The price of common rice is practically stationary.

Bengal.—Light to moderate rain has improved prospects of jute and other standing crops in places. Autumn paddy and summer *til* have suffered from floods. Transplantation of winter paddy is proceeding. Cattle disease is reported from three districts. The average price of common rice has risen slightly.

Bihar and Orissa.—During the week rain was fairly general over the Province, the fall being mostly light to moderate. Sowing of autumn crops continues. Transplantation of paddy has commenced in some districts. Weeding of jute is going on. Standing crops are doing well. The price of common rice as compared with that of the preceding week has risen in five, fallen in six and remained stationary in the remaining districts. Cattle disease is reported from fourteen districts. The condition of standing crops in the Feudatory States of Orissa is good.

United Provinces.—The rainfall during the week has been general but in places the fall was light. More rain is urgently needed in a few districts where sowing has been retarded and standing crops are reported to be withering. Preparation of land for and sowing of autumn crops and irrigation of autumn and extra crops and sugarcane continue. Standing crops are doing well on the whole, and prospects, so far, are generally favourable. The condition of agricultural stock is good though cattle disease is still prevalent in parts of a few districts. Fodder, water and market supplies are sufficient. Prices have risen in a few districts, but elsewhere they are generally stationary.

The weekly report on scarcity in Garhwal is as follows:—The rainfall during the week was 70 cents in Pauri and 16 cents in Srinagar. Good rain was received elsewhere. Standing crops are doing well. Transplantation of rice in irrigated land and weeding of *mandua* continue. Prospects are hopeful. Fodder and water are sufficient. Cattle disease is prevalent in a few parts. Prices are almost stationary. Market rates at Pauri are, wheat 6 and barley 8 seers per rupee and at Chamoli, wheat 5 and barley 6 seers per rupee. The demand for advances for the importation of grain, for subsistence takavi and for grain tickets has been much reduced. The number of persons on gratuitous relief was 852. No wandering or emaciation is noticed. The public health is good except for some cases of relapsing fever.

Punjab.—During the week the weather was dry except for light rain which fell in parts of a few southeastern districts. Rain is urgently wanted everywhere for autumn sowings. Cotton and other autumn crops are being sown, the area sown being below normal to normal. Germination is fair. Simla, the 15th July, 1918.

No. 762—The Honourable Mr J. M. Holms, C.S I., is permitted to resign His Majesty's Indian Civil Service, with effect from the 12th July 1918 or the subsequent date on which he may sail from India or relinquish charge of office in the event of his not taking subsidiary leave.

The 17th July, 1918.

No. 779—The following Order in Council dated the 22nd March 1918 is published for general information.

CIVIL SERVICE COMMISSION.

Order in Council dated 22nd March, 1918.

AT THE COURT AT BUCKINGHAM PALACE.

The 22nd day of March, 1918.

PRESENT.

THE KING'S MOST EXCELLENT MAJESTY IN COUNCIL.

WHEREAS by an Order in Council, dated the 10th January 1910, and known generally as the Civil Service (Consolidating) Order in Council, 1910, and hereinafter referred to as the "Principal Order," it is provided that, with certain provisions and exceptions, the qualifications

of all such persons as may seek or be proposed for appointment to any situation or employment in any of His Majesty's Civil Establishments shall, before they are so appointed, be tested by or under the directions of the Civil Service Commissioners; and that no person (save as excepted thereby) shall be appointed to any such Establishment until a Certificate of his qualification shall have been issued by the Civil Service Commissioners declaring that he has satisfied them, among other things, that he is free from any physical defect or disease which would be likely to interfere with the proper discharge of his duties:

And whereas it is expedient that the said requirement should be modified with respect to persons whose health has been impaired by reason of service in His Majesty's Forces in the present War:

Now, THEREFORE, His Majesty, by and with the advice of His Privy Council, doth order, and it is hereby ordered, as follows:—

1. This Order shall apply only to persons whose health has been impaired by reason of service in His Majesty's Forces during the present War.

2. Subject to the conditions as to age, character, and knowledge and ability, prescribed by Clause 3 of the Principal Order being satisfied, the Civil Service Commissioners may issue Certificates of qualification in favour of persons to whom this Order applies if the Commissioners are satisfied that they are at the moment fit to discharge the duties of the situation or employment which they seek or to which they are proposed for appointment, and that they are likely to render effective service for 15 years, or, in the case of persons already serving in unestablished positions which lead in the normal course to establishment, for 10 years.

The certificate issued under this Clause shall be known as a "Modified (War) Certificate," but shall, subject to the provisions of this Order as to sick leave, for all purposes have the same force and effect as a certificate issued under Clause 3 of the Principal Order.

3. In the application to the case of Officers holding Modified (War) Certificates of the sick leave rules laid down in Clause 19 of the Principal Order the following modification shall be made, that for the first five years of service after the date of the certificate any civil pay allowed during sick leave in excess of 36 week days in the aggregate in any year shall be reduced to such amount as, with any pension or retired pay and allowances payable by the Ministry of Pensions in respect of the period of sick leave, will not exceed the full civil pay of the office in respect of that period.

Provided that in the case of an Officer who, if he had retired on the ground of ill-health at the commencement of the period of sick leave, would have been qualified for a pension, if the amount of the reduced civil pay during sick leave is less than the pension which, if he had so retired, would have been payable to him in respect of the period of sick leave, it may, with the consent of the Treasury, be increased to an amount not exceeding the amount of such pension.

4. Where the Civil Service Commissioners are unable to decide whether a person is or is not likely to render effective service for 15 or 10 years, as the case may be, they may, if they think fit, issue in such person's favour a "Special Recommendation" under which he may be employed for such period to be specified in the recommendation as the Commissioners may, subject to any regulations made by them, think fit, but the issue of such a recommendation will not entitle a person to be regarded as a "Civil Servant" within the meaning of Section 12 of the Superannuation Act, 1887.

At the end of the period fixed by the recommendation the Commissioners will reconsider the case, and, if they are satisfied that the conditions enabling them to grant a Modified (War) Certificate are fulfilled, they shall grant such a certificate, and if not so satisfied they may either extend the period of the special recommendation or terminate it, in which case the Officer will cease to be employed in an office to which Part I of the Principal Order applies.

In determining whether a Modified (War) Certificate can be granted in favour of an Officer in whose favour a special recommendation has been issued the periods of 15 and 10 years' effective service respectively mentioned in Clause 2 of this Order shall be reckoned as from the beginning of service under the special recommendation.

5. Clauses 2 to 4 of this Order shall not apply to persons whose health has been impaired by reason of service in His Majesty's Forces during the present War and who, being already in possession of a Civil Servive Certificate in respect of a pensionable office, are appointed to an office not in the ordinary course of promotion in the same Department. In such a case the Civil Service Commissioners

may issue a certificate (which shall be required as heretofore) notwithstanding that the condition as to freedom from physical defect or disease specified in Clause 3 of the Principal Order is not satisfied, if the Officer is certified by the Head of his Department to be fit for the duties of his existing office.

Provided that, if the office to which he is to be appointed is one which appears to the Head of the Department concerned and to the Commissioners to be such as to require special physical qualifications, the Officer must satisfy the Commissioners that he possesses those qualifications.

RESOLUTION.- By the Government of India, Home Department.

In the Resolution of the Government of India in the Home Department, no. 2884, dated the 10th December 1917, it was announced that the Governor General in Council, with the approval of the Secretary of State for India, had decided to appoint a Committee :—

(1) To investigate and report on the nature and extent of the criminal conspiracies connected with the revolutionary movement in India.

(2) To examine and consider the difficulties that have arisen in dealing with such conspiracies and to advise as to the legislation, if any, necessary to enable Government to deal effectively with them.

The Committee met under the presidency of Mr Justice Rowlatt of the King's Bench Division of His Majesty's High Court of Justice, and included the following members :—

The Hon'ble Sir Basil Scott, Kt., Chief Justice of Bombay.

The Hon'ble Diwan Bahadur C. V. Kumaraswami Sastriyar, Judge of the High Court of Madras.

The Hon'ble Sir Verney Lovett, K.C S.I., Member of the Board of Revenue, United Provinces.

The Hon'ble Mr. Provash Chandra Mitter, Vakil of the High Court of Calcuttta.

Mr. J. D. V. Hodge, I.C.S., Bengal, acted as Secretary to the Committee.

2. The Committee have now submitted their report accompanied by a volume of appendices, informing the Government of India at the same time that they are doubtful whether the matter contained in the supplementary volume is suitable for publication as it reproduces literature of a very inflammatory character. The Government of India have examined the report carefully and decided to publish it with a few omissions which are marked by asterisks. These are made solely in the public interest and do not in any way affect the arguments of the Committee and the conclusions which they have reached. For the reason given by the Committee it has been decided to withhold from publication the volume of appendices. It is manifestly inexpedient that the pernicious matter which it reproduces should obtain publicity; the miserable history of sedition in India has all too often shown, and the report amply testifies, how the seeds of violence are first sown, especially in the enthusiastic but inexperienced mind of youth, by access to the literature of anarchy and crime.

3. The report, which is unanimous, is based largely on an enormous mass of intricate documentary evidence, and gives a full and concise account of the origin and growth of revolutionary conspiracy in India, while the ramifications of the movement, and the inter-connection of its varying phases in different provinces, are traced with admirable clearness and precision. In conclusion the Committee submit their recommendations regarding the steps required to meet the difficulties that have arisen, and these will now be taken into consideration.

4. In announcing the publication of the report the Governor-General in Council takes the opportunity of expressing his high appreciation of the labours of the Committee, and of the manner in which the results of their investigations have been presented.

ORDERED that the Resolution be published in the *Gazette of India* and that a copy be communicated to Local Governments and Administrations, the Departments of the Government of India noted on the margin, and the Director, Central Intelligence.

Season and Crop Prospects for the week ending Saturday, 13th July 1918.

Burma.—The rainfall during the week was general throughout the Province. The fall was heavy on the Arakan coast and light to moderate elsewhere. Ploughing, sowing and transplanting of winter rice are progressing in Lower Burma and in irrigated tracts of Upper Burma. Sowing of cotton, groundnut, late sesamum, peas and *juar* still continues. Standing crops are generally in good condition. Cattle are generally healthy. The price of unhusked rice has fallen slightly and is below normal. The market for white rice is quiet at Rs. 230 per hundred baskets for specials.

Assam.—The weather during the week was very rainy and generally favourable for agricultural operations. Sowing and transplantation of winter rice and manufacture of tea continue. Harvesting of autumn rice is going on. Some damage has been caused by floods. Prospects of crops are fair to good. Cattle disease is reported from five districts. The price of common rice has risen slightly.

Bengal.—During the week heavy rain fell in the northern and eastern districts but the fall was moderate in the western districts. Transplantation of winter rice and weeding of jute and autumn paddy in western districts are proceeding. Cutting and steeping of jute and harvesting of autumn paddy are going on in some northern and eastern districts. The condition of the lowland jute is not promising. Its growth has been affected by heavy rain. Prospects of other standing crops are fair. Weeding of sugarcane is in progress Cattle disease is reported from three districts. The average price of common rice has risen slightly.

Bihar and Orissa.—During the week rain was general over the Province, the fall being moderate to heavy in Bihar and light in Orissa and Chota Nagpur. Weeding of autumn crops continues. Transplantation of winter paddy is going on but more rain is wanted for the operation in parts of Orissa and Chota Nagpur. Standing crops are doing well. The price of common rice has risen in eight districts, fallen in three and remained stationary in the remaining districts as compared with that of the preceding week. Cattle disease is reported from fourteen districts. The condition of standing crops in the Feudatory States of Orissa is good.

United Provinces.—The rainfall in the upper, central and lower Doab districts and in Bundelkhand was light but elsewhere it was good. More rain is badly needed in most districts. Preparation of land for autumn crops continues and for spring crops has commenced in places. Sowing of autumn crops is in progress in most districts but has been retarded where the rainfall has been deficient. Irrigation of autumn crops and sugarcane is going on. Standing crops are, on the whole, good but are withering in places for want of rain. Prospects are generally favourable but are uncertain in a number of districts. The condition of agricultural stock is good, though cattle disease is still prevalent in parts of some districts. Fodder, water and market supplies are sufficient. Prices are tending to rise.

Punjab.—During the week light rain fell in nearly all the reporting districts except in the southeast and was useful. More rain is badly wanted everywhere. Sowings of cotton and other autumn crops continue and are below normal to normal. The condition of standing extra spring and autumn crops is generally average to good. Extra spring crops are being harvested with yield normal. Cattle are healthy and fodder and water are generally sufficient. Prices show an upward tendency and range generally between normal and warning rates in the southeast and between warning and scarcity rates elsewhere. Price of wheat:—Rawalpindi 7½, Lahore 8¼, Lyallpur 9, Ambala 9½ and Ferozepore 9½ seers per rupee.

North-West Frontier Province.—During the week rain fell in one district. More rain is badly needed throughout the Province. Sowings of certain autumn crops are proceeding normally. The condition of standing crops is generally average. The yield of wheat and of extra spring crops is also average. Wheat is selling in Peshawar at 9¼ and in Dera Ismail Khan at 10½ seers per rupee.

Jammu.—Slight rain fell during the week in some parts. Prices are stationary.

Kashmir.—Report not received.

Rajputana.—The weather during the week was cloudy. Sowings are proceeding. Cattle are in fair condition. Fodder and water are sufficient. Prices are rising.
